MAX FLOW - HR3

Reverse Osmosis System

State-Of-The-Art Features

Patented Design

Exclusive manifold plate with patented channel design reduces tubing connections and simplifies installation.

High Capacity Tank

Holds approximately two gallons of water without taking up a lot of space.

Compact System

Space-saving design is ideal for under-the-sink or basement installations and uses a minimum of space.

Automatic Shut-off

Signals the system to stop making water until more is needed.

Maximum Production

High performance T.F.C. membrane with a rating of 50 gallons per day, (189 liters per day).

Why use a Reverse Osmosis Drinking System?

- **Delicious**, sparkling-clean drinking water
- Convenience: Fresh, clean water **ready at your tap**
- Pristine, flavorful coffee, tea and juice
- Quality water for your aquarium
- Clean, rinsed fresh fruits and vegetables
- Crystalline, harder and clearer ice cubes
- Prolong the life of your humidifier or steam iron
- **Spotless glassware**, when rinsed with R.O. water
- Cost effective: No more bottled water costs
- Better tasting soups, sauces and meals
- Environmentally sound: **No chemicals**
- Great for your pets!
