SMARTCHOICE™ ELITE

Twin Water Softening System

Media Boost Technology

Media Boost Technology:

Proprietary distribution baskets disperse the media bed more effectively during backwash than other solutions, cleaning the media more thoroughly. Cleaner media results in longer media life, less salt usage, and less water usage - all saving you money.

Brine Tank:

The brine tank is designed for strength and durability, but also boasts a sleek look that matches the softener. Available in 150 lbs. (13"x33") round, 150 lbs. (11"x36") square and 240 lbs. (15"x17") rectangular to match any size salt storage needs.

Leading Warranties + Exclusive Exchange Program

The SmartChoice™ Elite was designed with the consumer in mind - as a long-lasting appliance that will provide efficient water conditioning in your home for years to come. And although it may be years before the first service is required, we want to be sure you have options. That's why we offer industry-leading warranties as well as our Exclusive Exchange Program - just swap out the part you need (or have a service technician do it for you) instead of buying a whole new system.

How the Exclusive Exchange Program works:

Resin:

The resin in the media tank is covered in our original limited warranty* provided with your equipment for a period of ten years. If service is required beyond the initial warranty, simply use the quick disconnect feature to detach the control valve from the resin tank; then exchange the tank for a factory refurbished one. Pricing on replacement tanks may vary at the time of exchange.

Control Valve:

The control valve is also covered in the original limited warranty* provided with your purchase for a period of ten years. If service is required beyond the initial warranty, simply use the quick disconnect feature to detach the control valve from the resin tank; and exchange it for a factory refurbished valve. Pricing on the exchanged valve may vary at the time of exchange.

*See Aqua Systems Limited Warranty, Section III - Limitations Applicable to the Limited Warranty.
